

## November 2024 Astrological Outlook

### GREETINGS:

November begins with a New Moon in Scorpio on **11/1**, ushering in an extra potent Scorpio season. The month starts off with the two rulers of Scorpio, Mars and Pluto, opposing one another as passions bubble up and move life forward. Mars is the God of War and Pluto is the lord of power in the underworld. Pluto has been coming and going at the last degree of Capricorn since 2023. On **11/19** Pluto finishes his 250-year visit around the Sun, beginning a new era of growth. The New Moon in Scorpio is supported by the structure of Saturn in a triangle in water signs, including Neptune in Pisces and Mars in Cancer. We have reached a major crossroads in our lives, so get ready for a wild month of twists and turns. The intensity of the New Moon will be felt for the next two weeks, until a powerful Full Moon in Taurus (**11/15/24**) precedes the entrance of Pluto into Aquarius, where he will work his magic for the next 20 years.

### MAJOR ASTROLOGICAL PATTERNS IN NOVEMBER 2024:

#### MARS IN CANCER OPPOSES PLUTO IN CAPRICORN ON NOVEMBER 3

On **11/3**, Mars in Cancer will oppose Pluto in Capricorn for the last time in our lives. This combination of powerful energy may bring tensions that lead to anger and desire to fight as we feel the need to leave an era behind: old structures, systems, patterns and traditions that no longer serve us. Coincidentally Venus in Sagittarius opposes Jupiter in Gemini, opening the door to a more peaceful awareness of our needs, balanced with those of others. Since both Mars and Pluto are at the last degree of their signs (29 degrees) we will probably feel the force of moving forward very intensely as we release our pressure valves. Thereafter we can ultimately generate more creativity, playfulness, love and hope.

#### MARS ENTERS LEO (11/3/24)

Mars enters Leo on **11/3** which normally lasts a couple of months. Since Mars will experience a retrograde period on 12/6, allowing him to move in and out of Leo until 6/17/25, we will have a large dose of Mars keeping us going. With Mars in Leo, expect more drama, pleasure, self-expression and passion in your life.

In addition, more confidence will move us forward as we enjoy social events. When Mars is moving forward in Leo, we will have greater determination and courage, ambition and desire for greater visibility, stepping into leadership roles and releasing what no longer serves you. Mars remains in and out of Leo until 6/17/25, allowing us to use all the positive traits of Mars in Leo to our advantage. Change is coming and we need to leap!

#### VENUS ENTERS CAPRICORN ON 11/11/24

When Venus ends her residency in Sagittarius and enters Capricorn from 11/11-12/7/24, we need to get ready to clarify our values and commitments. In other words, "it is time to grow up and be responsible". With Venus in practical Capricorn, relationships will be viewed more realistically for the next 26 days. We will be able to reign in our wildness and decide who and what is important to us and how and with whom we want to focus our love and attention. Reviewing your financial goals and your values will come along for the ride as well.

## **FULL MOON IN TAURUS 11/15/24**

The Full Moon in Taurus shines a light on our strong inner need for security, both emotionally and practically. Fortunately, the Moon is joined by Uranus, adding a “spark of genius” to light the path. It is time to liberate us from feeling stuck and become more genuine. Abrupt realizations are long overdue. Big shifts are inevitable, and we can trust that the unexpected will help us find our true paths. Miraculous breakthroughs, opportunities and manifestations are possible now—but so is the chaos of abrupt change. Stay centered in your body and rooted to the Earth, no matter what surprises we encounter. On 11/15 Saturn, the planet of mature thinking and acting moves forward, helping us plan our future success. Since Saturn has been resting in watery Pisces since 6/29/24, it is time to get up and get going. It is time to bring your imagination out and trust your gut.

## **PLUTO ENTERS AQUARIUS (11/19/24) BRINGING IN A NEW ERA FOR THE NEXT 20 YEARS**

On 11/19 Pluto enters Aquarius for the third and final time, where he will live for the next 20 years. Aquarius is the sign of the future, changes in society, revolution, and major technological advancement. We are now moving beyond the past into a new paradigm which holds the potential for the implementation of more progressive values, cooperation, technological breakthroughs and freedom from oppression. We are stepping into a more humanitarian age in which our visions of the future can become real.

## **THE SUN MOVES INTO SAGITTARIUS (11/21 MERCURY GOES RETROGRADE IN SAGITTARIUS FROM 11/25-12/15/24**

As the Sun enters Sagittarius, we will adjust our gazes from looking internally as we look toward the horizon. The symbol for Sagittarius is the Archer who is half horse and half human. Sagittarius loves adventure, travel and expanding perspectives of knowledge. The other trait is “don’t fence me in”. It’s time to take risks, have more fun and find deeper meaning in all that we do. The period of retrograde Mercury is from **11/25-12/15/24**. Mercury retrogrades are about reflection, recalibration and review. We can also drop into our hearts and turn off the chattiness of our intellectual minds. Magic and psychic abilities are pronounced, while travel, technology and regular communication may go a bit haywire. Time to examine our beliefs and mental frameworks to see where we have become overzealous or closed minded. It is time to relax tension and drop into the wisdom of the need not to know and “fear not”. On **11/26** the Sun and Mars support one another in a fire triangle, a recipe for success.

On a personal note, I want to share with you why the wisdom of astrology has fascinated me for the past 53 years: astrology is a tool for self-discovery and used for thousands of years; astrological patterns act as spotlight that illuminate our hidden inner strengths, talents and true self. I hope you will consider getting an update soon. With the world changing so dynamically, it is a gift you give yourself. When I began my study of astrology in 1968, I had the beginning of awareness of my authentic self and the wisdom to know that we are all so different but alike. As a psychotherapist since 1981, it has been a magic key to opening the door within. I had an astrological teacher say that it helps to know what we are on our inner self. If we could see ourselves as we are, we would change and grow. Astrological information is a magic tool. I am available to share my knowledge with you

for the next 2 months. Let me know how I can be of help. **THANK YOU MORE THAN YOU CAN IMAGINE FOR YOUR SUPPORT FOR THE PAST 53 YEARS. I AM READY TO MOVE INTO MY 54<sup>TH</sup> YEAR.**

**HAVE A HAPPY THANKSGIVING AND ENJOY THE RIDE INTO THE AQUARIAN AGE,**

**NAN**
